

Official's Report

January 13, 2025

- The number of new officials that have begun the process toward certification as either a Stroke & Turn or Admin Official is down significantly since this time last year. PNS officials' registrations for those two positions are down over 100 individuals. We are still gathering information as to how many officials that were certified in 2024 did not register for the 2025 season.
- The new Officials website is now live and has been very well received. Special Thanks go out to Nick Siripipat, Qiang Chen and Wilson Defiesta in putting it all together.
- KCAC is very close to not having enough workable lap counters. At the end of the Senior Championships there were 16 fully intact counters.
